

# 2018-19 SKI POLES made in JAPAN

## Innovation FINGER HOLDER

 **SINANO.**

# FINGER HOLDER

## This is Pole Grip Innovation

This unique grip-system is invented to satisfy demands from advanced and professional skiers. Use Finger Holder to improve and upgrade your skiing.

## Last resort to improve your skiing

### Quicker and smoother pole swing

Thanks to a perfect link between a hand and the pole for improving the performance dramatically, Finger Holder allows quick and smooth pole swing while the grip can be always held in the predetermined position in hand.

By holding a Finger Holder between little and ring fingers, pole can perfectly fit hands.

### Carbon Composite

φ10.5 Carbon 100. 105. 107. 110. 113. 115. 117. 120. 125. 130
